

Francesco Esposito

About Me

Hi, I'm Francesco. I'm a tech professional with a strong background in electronics and networking, and a growing passion for data. Over the years, I've evolved from programming embedded systems to building end-to-end data workflows — from scraping and cleaning to analysis, visualization, and web deployment. I specialize in Python, using libraries like Pandas, Requests, and Seaborn to explore data, and frameworks like Django and Streamlit to build data-driven tools. I'm meticulous, creative, and always focused on practical, real-world solutions. For me, data isn't just numbers — it's the raw material for insight, action, and storytelling.

Languages

- English (A2)
- Spanish (C2)
- Italian (Native)
- Neapolitan (Native)

Soft Skills

- Problem Solving
- Creativity
- Communication
- Critical Thinking
- Adaptability
- Collaboration
- Continuous Learning
- Curiosity

Hard Skills

- Python
- Pandas
- NumPy
- PyTorch
- SQL
- Machine & Deep Learning
- Data Visualization
- HTML
- CSS
- JavaScript
- Git
- Django
- Flask
- Web Scraping
- Data Cleaning
- Deployment

Experience

2022 - Present

Data Scientist

Visiotech - Madrid, Spain

2020 - 2022

Support Manager

Visiotech - Madrid, Spain

2015 - 2020

Support Specialist

Visiotech - Madrid, Spain

2008 - 2015

IT and Network Administrator

starSistemi - Torre del Greco, Naples, Italy

2005 - 2015

Pre and Post-Sales / Support Agent

starSistemi - Torre del Greco, Naples, Italy

Education

Sep 2024 - Dec 2024

Django Course: Backend Web Development

Udemy - Remote

Oct 2021 - Jul 2022

Data Science & Machine Learning

ID Bootcamps - Madrid, Spain

1999 - 2004

IT and Telecommunications

IIS G.Marconi - Torre Annunziata, Naples, Italy
